

My Name is JB; I have Struggled with some form of addiction to Substances ~~every~~ ever since I was 8 yrs old. when I became physically, mentally & Spiritually addicted, to Opiates it was the end of recreational use for me. I no longer took pills to get high but rather to feel normal again. My bottom was not being able to get out of bed without a fix. Every relationship I had hinged on my ability to score so that I was not "Sick with the Flu" again. Victory Clinic has given me the necessary treatment I've need for every long time. My job has lasted almost 3 yrs. Im in a very close relationship with my girlfriend gony on 6 yrs. Thankyou Victory for giving me the necessary tools needed to be a trusted, productive member of Society!!!
